January 6, 2022

ATTENDEES:

Please identify yourself each time you speak to facilitate accurate transcription of meeting minutes.

Board of Supervisors
Palm Bay Community Development District

Dear Board Members:

The Board of Supervisors of the Palm Bay Community Development District will hold a Regular Meeting on January 13, 2022, at 9:00 a.m., at the Courtyard by Marriott Tampa/Oldsmar, 4014 Tampa Road, Oldsmar, Florida 34677. The agenda is as follows:

- 1. Call to Order/Roll Call
- 2. Public Comments: Agenda Items
- 3 Consider Appointment of Qualified Elector to Fill Unexpired Term of Seat 4
- 4. Administration of Oath of Office to Newly Appointed Supervisor (the following will be provided in a separate package)
 - A. Guide to Sunshine Amendment and Code of Ethics for Public Officers and Employees
 - B. Membership, Obligations and Responsibilities
 - C. Financial Disclosure Forms
 - I. Form 1: Statement of Financial Interests
 - II. Form 1X: Amendment to Form 1, Statement of Financial Interests
 - III. Form 1F: Final Statement of Financial Interests
 - D. Form 8B Memorandum of Voting Conflict
- 5. Consideration of Resolution 2022-01, Designating Certain Officers of the District, and Providing for an Effective Date
- 6. Continued Discussion: Capital Improvement Program and Closing Loan with FineMark National Bank & Trust
- 7. Update: Stormwater Reporting Requirements

- Discussion: Marina Remote Controls Available for Purchase by Residents 8.
- 9. Acceptance of Unaudited Financial Statements as of November 30, 2021
- 10. Approval of October 14, 2021 Regular Meeting Minutes
- 11. Staff Reports
 - District Counsel: Straley Robin Vericker A.
 - В. District Engineer: Landmark Engineering & Surveying Corp.
 - C. District Manager: Wrathell, Hunt and Associates, LLC
 - NEXT MEETING DATE: April 14, 2022 at 9:00 a.m.
 - QUORUM CHECK 0

| ROB BERGMAN | IN PERSON | PHONE | No |
|-------------------|-----------|-------|------|
| SPIROS MARGETIS | IN PERSON | PHONE | ☐ No |
| JOE ASCHENBRENNER | IN PERSON | PHONE | ☐ No |
| VACANT | IN PERSON | PHONE | ☐ No |
| WIN WILLIAMSON | IN PERSON | PHONE | ☐ No |

- 12. Public Comments: Non-Agenda Items
- 13. Supervisors' Requests
- 14. Adjournment

Should you have any questions, please do not hesitate to contact me directly at 239-464-7114.

Sincerely,

Chesley E. Adams, Jr.

District Manager

FOR BOARD MEMBERS AND STAFF TO ATTEND BY TELEPHONE

CALL IN NUMBER: 1-888-354-0094 PARTICIPANT PASSCODE: 229 774 8903

PALM BAY COMMUNITY DEVELOPMENT DISTRICT

RESOLUTION 2022-01

A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE PALM BAY COMMUNITY DEVELOPMENT DISTRICT DESIGNATING CERTAIN OFFICERS OF THE DISTRICT, AND PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, the Palm Bay Community Development District ("District") is a local unit of special-purpose government created and existing pursuant to Chapter 190, Florida Statutes; and

WHEREAS, the Board of Supervisors of the District desires to designate certain Officers of the District.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE PALM BAY COMMUNITY DEVELOPMENT DISTRICT:

| SECTION 1 | | is appointed Chair. |
|------------|----------------|-----------------------------------|
| SECTION 2. | | is appointed Vice Chair. |
| SECTION 3. | Chuck Adams | is appointed Secretary. |
| | | is appointed Assistant Secretary. |
| | | is appointed Assistant Secretary. |
| | | is appointed Assistant Secretary. |
| | Craig Wrathell | is appointed Assistant Secretary. |

SECTION 4. This Resolution supersedes any prior appointments made by the Board for Chair, Vice Chair, Secretary and Assistant Secretaries; however, prior appointments by the Board for Treasurer and Assistant Treasurer(s) remain unaffected by this Resolution.

SECTION 5. This Resolution shall become effective immediately upon its adoption.

[SIGNATURES APPEAR ON THE FOLLOWING PAGE]

PASSED AND ADOPTED this 13th day of January, 2022.

PALM BAY COMMUNITY DEVELOPMENT DISTRICT

TEMPLATE FOR LOCAL GOVERNMENTS AND SPECIAL DISTRICTS FOR PERFORMING A STORMWATER NEEDS ANALYSIS PURSUANT TO SECTION 5 OF SECTION 403.9302, FLORIDA STATUTES

INTRODUCTION

As part of the 2021 regular session, the Legislature recognized the need for a long-term planning process for stormwater and wastewater. Section 403.9302, Florida Statutes, requires a 20-year needs analysis from the local governments providing stormwater services. Because this planning document is forward-looking, it will necessarily include a large number of assumptions about future actions. These assumptions should be based on any available information coupled with best professional judgment of the individuals completing the document. Completing this template by June 30, 2022, will fulfill the statutory requirements for the first round of 20-year needs analyses for stormwater. The template was generated by EDR in cooperation with local governments, Special Districts, the Florida Department of Environmental Protection (DEP), the Water Management Districts, the Florida Stormwater Association, private consultants, and others. Use of this tool will help ensure that information is compiled consistently for the Office of Economic & Demographic Research's (EDR) report to the Legislature.

For the purposes of this document, a stormwater management program and a stormwater management system are as defined in statute (s. 403.031(15) and (16), F.S., respectively; language provided here: https://www.flsenate.gov/Laws/Statutes/2021/403.031). Plainly speaking, the "program" is the institutional framework whereby stormwater management activities (MS4 NPDES permit activities, and other regulatory activities, construction, operation and maintenance, etc.) are carried out by the public authority. The "system" comprises the physical infrastructure that is owned and/or operated by the local government or special district that specifically is intended to control, convey or store stormwater runoff for treatment and flood protection purposes.

For the purposes of this document, the following guiding principles have been adopted:

- Stormwater systems or facilities owned and operated by any of the following are excluded from reporting requirements for local governments and special districts:
 - o Private entities or citizens
 - o Federal government
 - o State government, including the Florida Department of Transportation (FDOT)
 - o Water Management Districts
 - o School districts
 - o State universities or Florida colleges
- Local government expenditures associated with routine operation and maintenance are fully funded prior to commencing new projects and initiatives.
- Local government submissions will include the activities of dependent special districts. Only independent special districts report separately. For a list of all special districts in the state and their type (i.e., dependent or independent), please see the Department of Economic Opportunity's Official List of Special Districts at the following link: http://specialdistrictreports.floridajobs.org/webreports/alphalist.aspx.
- With respect to federal and state statutes and rulemaking, current law and current administration prevails throughout the 20-year period. In other words, the state's present legal framework (*i.e.*, the status quo) continues throughout the period.

GENERAL INSTRUCTIONS FOR USING THE TEMPLATE

Instructions for submitting the template are still under development. Additional information regarding submission and answers to frequently asked questions will be posted on EDR's website, along with other useful materials, here: http://edr.state.fl.us/Content/natural-resources/stormwaterwastewater.cfm

The statutory language forms the titles for each part. This template asks that you group your recent and projected expenditures in prescribed categories. A detailed list of the categories is provided in part 5.0. The same project should not appear on multiple tables in the jurisdiction's response unless the project's expenditures are allocated between those tables. All expenditures should be reported in \$1,000s (e.g., five hundred thousand dollars should be reported as \$500).

For any jurisdiction that is contracting with another jurisdiction where both could be reporting the same expenditure, please contact EDR for additional guidance. In situations where a reporting jurisdiction contracts with a non-reporting jurisdiction, (*i.e.*, FDOT, the water management districts, the state or federal government), the reporting jurisdiction should include the expenditures.

When reporting cost information, please only include the expenditures that have flowed, are flowing, or will likely flow through your jurisdiction's budget. While necessary to comply with the statute, the concept of "future expenditures" should be viewed as an expression of identified needs.

These projections are necessarily speculative and do not represent a firm commitment to future budget actions by the jurisdiction.

This Excel workbook contains three worksheets for data entry. (Along the bottom of the screen, the three tabs are highlighted green.) Empty cells with visible borders are unlocked for data entry. In the first tab, titled "Background through Part 4," the information requested is either text, a dropdown list (e.g., Yes or No), or a checkbox. The next tab, "Part 5 through Part 8," contains tables for expenditure or revenue data as well as some follow-up questions that may have checkboxes, lists, or space for text.

In Part 5 and Part 6, the expenditure tables have space for up to 5 projects. More projects can be listed in the "Additional Projects" tab. This tab contains a table with space for up to 200 additional projects. In order for these additional projects and expenditures to be correctly classified and included in the final totals, each project must be assigned a Project Type and Funding Source Type the from the dropdown lists in columns B and C.

| 1.2 Current Stormwater | Program Activities: | |
|-----------------------------------|---|----------------------|
| Please provide answers | to the following questions regarding your stormwater management program. | |
| Does your juris | diction have an NPDES Municipal Separate Storm Sewer System (MS4) Permit? | |
| If yes, | is your jurisdiction regulated under Phase I or Phase II of the NPDES Program: | |
| Does your juris | diction have a dedicated stormwater utility? | |
| If no, o | lo you have another funding mechanism? | |
| | If yes, please describe your funding mechanism. | |
| | | |
| | | |
| Does your juris | diction have a Stormwater Master Plan or Plans? | |
| If Yes: | | |
| | How many years does the plan(s) cover? | |
| | Are there any unique features or limitations that are necessary to understand what the | ne plan does or does |
| | not address? | |
| | | |
| | | |
| | Please provide a link to the most recently adopted version of the document (if it is pu | blished online): |
| | | |
| Does your juris | diction have an asset management (AM) system for stormwater infrastructure? | |
| If Yes, | does it include 100% of your facilities? | |
| If your | AM includes less than 100% of your facilities, approximately what percent of your | |
| facilitie | es are included? | |

| Does y | our stormwater management program implement the following (answer Yes/No): |
|--------------------------|---|
| | A construction sediment and erosion control program for new construction (plans review |
| | and/or inspection)? |
| | An illicit discharge inspection and elimination program? |
| | A public education program? |
| | A program to involve the public regarding stormwater issues? |
| | A "housekeeping" program for managing stormwater associated with vehicle maintenance |
| | yards, chemical storage, fertilizer management, etc. ? |
| | A stormwater ordinance compliance program (i.e., for low phosphorus fertilizer)? |
| | Water quality or stream gage monitoring? |
| | A geospatial data or other mapping system to locate stormwater infrastructure (GIS, etc.)? |
| | A system for managing stormwater complaints? |
| | Other specific activities? |
| 1.3 Current Sto | Notes or Comments on any of the above: mwater Program Operation and Maintenance Activities |
| | |
| | answers to the following questions regarding the operation and maintenance activities undertaken by your anagement program. |
| Does | our jurisdiction typically assume maintenance responsibility for stormwater systems associated |
| | ew private development (i.e., systems that are dedicated to public ownership and/or operation completion)? |

Part 2. Detailed description of the stormwater management system and its facilities and projects (continued Section 403.9302(3)(a), F.S.)

A stormwater management system, as defined in the Introduction, includes the entire set of site design features and structural infrastructure for collection, conveyance, storage, infiltration, treatment, and disposal of stormwater. It may include drainage improvements and measures to prevent streambank channel erosion and habitat degradation. This section asks for a summary description of your stormwater management system. It is not necessary to provide geospatial asset data or a detailed inventory. For some, it may be possible to gather the required data from your Asset Management (AM) system. For others, data may be gathered from sources such as an MS4 permit application, aerial photos, past or ongoing budget investments, water quality projects, or any other system of data storage/management that is employed by the jurisdiction.

Please provide answers to the following questions regarding your stormwater system inventory. Enter zero (0) if your system does not include the component.

| | Number | Unit of |
|---|--------|-------------|
| | Number | Measurement |
| Estimated feet or miles of buried culvert: | | |
| Estimated feet or miles of open ditches/conveyances (lined and unlined) that are maintained by the | | |
| stormwater program: | | |
| Estimated number of storage or treatment basins (i.e., wet or dry ponds): | | |
| Estimated number of gross pollutant separators including engineered sediment traps such as baffle | | |
| boxes, hydrodynamic separators, etc. : | | |
| Number of chemical treatment systems (e.g., alum or polymer injection): | | |
| Number of stormwater pump stations: | | |
| Number of dynamic water level control structures (e.g., operable gates and weirs that control canal | | |
| water levels): | | |
| Number of stormwater treatment wetland systems: | | |

Part 3. The number of current and projected residents served calculated in 5-year increments (Section 403.9302(3)(b), F.S.)

Part 5.0 The current and projected cost of providing services calculated in 5-year increments (Section 403.9302(3)(d), F.S.)

Given the volume of services, jurisdictions should use the template's service groupings rather than reporting the current and projected cost of each individual service. Therefore, for the purposes of this document, "services" means:

- 1. Routine operation and maintenance (inclusive of the items listed in Part 1.3 of this document, ongoing administration, and non-structural programs)
- 2. Expansion (that is, improvement) of a stormwater management system.

Expansion means new work, new projects, retrofitting, and significant upgrades. Within the template, there are four categories of expansion projects

- 1. Flood protection, addressed in parts 5.2 and 5.3... this includes capital projects intended for flood protection/flood abatement
- 2. Water quality, addressed in part 5.2 and 5.3... this includes stormwater projects related to water quality improvement, such as BMAPs; projects to benefit natural systems through restoration or enhancement; and stormwater initiatives that are part of aquifer recharge projects
- 3. Resiliency, addressed in part 5.4... this includes all major stormwater initiatives that are developed specifically to address the effects of climate change, such as sea level rise and increased flood events
- 4. End of useful life replacement projects, addressed in part 6.0... this includes major expenses associated with the replacement of aging infrastructure

While numbers 3 and 4 have components that would otherwise fit into the first two categories, they are separately treated given their overall importance to the Legislature and other policymakers.

Expansion projects are further characterized as currently having either a committed funding source or no identified funding source. Examples of a committed funding source include the capacity to absorb the project's capital cost within current budget levels or forecasted revenue growth; financing that is underway or anticipated (bond or loan); known state or federal funding (appropriation or grant); special assessment; or dedicated cash reserves for future expenditure.

All answers should be based on local fiscal years (LFY, beginning October 1 and running through September 30). Please use nominal dollars for each year, but include any expected cost increases for inflation or population growth. Please check the EDR website for optional growth rate schedules that may be helpful.

If you have more than 5 projects in a particular category, please use the "Additional Projects" tab. There, you can use dropdown lists to choose the project category and whether there is a committed funding source, then enter the project name and expenditure amounts.

Part 5.1 Routine Operation and Maintenance

Please complete the table below, indicating the cost of operation and maintenance activities for the current year and subsequent five-year increments throughout the 20-year horizon. Your response to this part should exclude future initiatives associated with resiliency or major expenses associated with the replacement of aging infrastructure; these activities are addressed in subparts 5.4 and 6.0. However, do include non-structural programs like public outreach and education in this category.

If specific cost data is not yet available for the current year, the most recent (2020-21) O&M value can be input into the optional growth rate schedules (available on EDR's website as an Excel workbook). The most recent O&M value can be grown using the provided options for inflation, population growth, or some other metric of your choosing. If the growth in your projected total O&M costs is more than 15% over any five-year increment, please provide a brief explanation of the major drivers.

| Routine Operation and Maintenance | Expenditures (in \$thousands) | | | | | | | | |
|--|-------------------------------|------------|------------|------------|------------|--|--|--|--|
| | LFY 2021-2022 | 2022-23 to | 2027-28 to | 2032-33 to | 2037-38 to | | | | |
| | LF1 2021-2022 | 2026-27 | 2031-32 | 2036-37 | 2041-42 | | | | |
| Operation and Maintenance Costs | | | | | | | | | |
| Brief description of growth greater than 15% over any 5-year period: | | | | | | | | | |
| | | | | | | | | | |
| | | | | | | | | | |
| | | | | | | | | | |

Part 5.2 Future Expansion (Committed Funding Source)

Please list expansion projects and their associated costs for the current year and subsequent five-year increments throughout the 20-year planning horizon. In this section, include stormwater system expansion projects or portions of projects with a committed funding source. If you include a portion of a project that is not fully funded, the project's remaining cost must be included in part 5.3, Expansion Projects with No Identified Funding Source.

Though many, if not most, stormwater projects benefit both flood protection and water quality, please use your best judgment to either allocate costs or simply select the primary purpose from the two categories below.

- 5.2.1 Flood Protection (Committed Funding Source): Provide a list of all scheduled new work, retrofitting and upgrades related to flood protection/flood abatement. Include infrastructure such as storage basins, piping and other conveyances, land purchases for stormwater projects, etc. Also include major hardware purchases such as vactor/jet trucks.
- 5.2.2 Water Quality Projects (Committed Funding Source): Please provide a list of scheduled water quality projects in your jurisdiction, such as treatment basins, alum injection systems, green infrastructure, water quality retrofits, etc., that have a direct stormwater component. The projected expenditures should reflect only those costs.
 - If you are party to an adopted BMAP, please include the capital projects associated with stormwater in this table. Include BMAP project number, cost to your jurisdiction, and year(s) that capital improvement costs are to be incurred. For reference, DEP publishes a complete list of adopted BMAP projects as an appendix in their Annual STAR Report.

Expansion Projects with a Committed Funding Source

Part 5.3 Future Expansion with No Identified Funding Source

Please provide a list of known expansion projects or anticipated need(s) without formal funding commitments(s), formal pledges, or obligations. If you included a portion of a project that was partially covered by a committed source in part 5.2 above, list the projects and their remaining costs below.

5.3.1 Future Flood Protection with No Identified Funding Source: Please provide a list of future flood protection/flood abatement projects, associated land purchases, or major hardware purchases that are needed in your jurisdiction over the next 20 years. Future needs may be based on Master Plans, Comprehensive Plan Elements, Water Control Plans, areas of frequent flooding, hydrologic and hydraulic modeling, public safety, increased frequency of maintenance, desired level of service, flooding complaints, etc.

5.3.2 Future Water Quality Projects with no Identified Funding Source: Please provide a list of future stormwater projects needed in your jurisdiction over the next 20 years that are primarily related to water quality issues. Future needs may be based on proximity to impaired waters or waters with total maximum daily loads (TMDLs), BMAPs, state adopted Restoration Plans, Alternative Restoration Plans, or other local water quality needs.

- If you are party to an adopted BMAP, please list capital projects associated with stormwater. Include BMAP project number, cost to your jurisdiction, and year(s) that capital improvement costs are to be incurred.
- List other future water quality projects, including those in support of local water quality goals as well as those identified in proposed (but not yet adopted) BMAPs.

Part 6.0 The estimated remaining useful life of each facility or its major components (Section 403.9302(3)(e), F.S.)

Rather than reporting the exact number of useful years remaining for individual components, this section is constructed to focus on infrastructure components that are targeted for replacement and will be major expenses within the 20-year time horizon. Major replacements include culverts and pipe networks, control structures, pump stations, physical/biological filter media, etc. Further, the costs of retrofitting when used in lieu of replacement (such as slip lining) should be included in this part. Finally, for the purposes of this document, it is assumed that open storage and conveyance systems are maintained (as opposed to replaced) and have an unlimited service life.

In order to distinguish between routine maintenance projects and the replacement projects to be included in this part, only major expenses are included here. A major expense is defined as any single replacement project greater than 5% of the jurisdiction's total O&M expenditures over the most recent five-year period (such as a project in late 2021 costing more than 5% of the O&M expenditures for fiscal years 2016-2017 to 2020-2021).

If you have more than 5 projects in a particular category, please use the "Additional Projects" tab. There, you can use dropdown lists to choose the project category and whether there is a committed funding source, then enter the project name and expenditure amounts.

End of Useful Life Replacement Projects with a Committed Funding Source

Part 7.0 The most recent 5-year history of annual contributions to, expenditures from, and balances of any capital account for maintenance or expansion of any facility or its major components. (Section 403.9302(3)(f), F.S.)

This part of the template also addresses a portion of s. 403.9302(3)(g), F.S., by including historical expenditures. Many local governments refer to these as "actual" expenditures.

Consistent with expenditure projections, the jurisdiction's actual expenditures are categorized into routine O&M, expansion, resiliency projects, and replacement of aging infrastructure. Additionally, the table includes space for reserve accounts. EDR's interpretation of subparagraph 403.9302(3)(f), F.S., is that "capital account" refers to any reserve account developed specifically to cover future expenditures.

Note that for this table:

- Expenditures for local fiscal year 2020-21 can be estimated based on the most current information if final data is not yet available.
- Current Year Revenues include tax and fee collections budgeted for that fiscal year as well as unexpended balances from the prior year (balance forward or carry-over) unless they are earmarked for the rainy day or a dedicated reserve as explained in the following bullets.
- Bond proceeds should reflect only the amount expended in the given year.
- A reserve is a dedicated account to accumulate funds for a specific future expenditure.
- An all-purpose rainy day fund is a type of working capital fund typically used to address costs associated with emergencies or unplanned events.

The sum of the values reported in the "Funding Sources for Actual Expenditures" columns should equal the total "Actual Expenditures" amount. The cells in the "Funding Sources for Actual Expenditures" section will be highlighted red if their sum does not equal the "Actual Expenditures" total.

If you do not have a formal reserve dedicated to your stormwater system, please enter zero for the final two reserve columns.

| 2020-21 | | | | | | | | |

Part 8.0 The local government's plan to fund the maintenance or expansion of any facility or its major components. The plan must include historical and estimated future revenues and expenditures with an evaluation of how the local government expects to close any projected funding gap (Section 403.9302(3)(g), F.S.)

In this template, the historical data deemed necessary to comply with s. 403.9302(3)(g), F.S., was included in part 7.0. This part is forward looking and includes a funding gap calculation. The first two tables will be auto-filled from the data you reported in prior tables. To do this, EDR will rely on this template's working definition of projects with committed funding sources, i.e., EDR assumes that all committed projects have committed revenues. Those projects with no identified funding source are considered to be unfunded. EDR has automated the calculation of projected funding gaps based on these assumptions.

| Committed Funding Source | 2022-23 to | 2027-28 to | 2032-33 to | 2037-38 to |
|--|------------|------------|------------|------------|
| Committee Funding Source | 2026-27 | 2031-32 | 2036-37 | 2041-42 |
| Maintenance | 0 | 0 | 0 | 0 |
| Expansion | 0 | 0 | 0 | 0 |
| Resiliency | 0 | 0 | 0 | 0 |
| Replacement/Aging Infrastructure | 0 | 0 | 0 | 0 |
| Total Committed Revenues (=Total Committed Projects) | 0 | 0 | 0 | 0 |

| No Identified Funding Source | 2022-23 to | 2027-28 to | 2032-33 to | 2037-38 to |
|--|------------|------------|------------|------------|
| No identified Failding Source | 2026-27 | 2031-32 | 2036-37 | 2041-42 |
| Maintenance | 0 | 0 | 0 | 0 |
| Expansion | 0 | 0 | 0 | 0 |
| Resiliency | 0 | 0 | 0 | 0 |
| Replacement/Aging Infrastructure | 0 | 0 | 0 | 0 |
| Projected Funding Gap (=Total Non-Committed Needs) | 0 | 0 | 0 | 0 |

For any specific strategies that will close or lessen a projected funding gap, please list them in the table below. For each strategy, also include the expected new revenue within the five-year increments.

| Strategies for New Funding Sources | 2022-23 to | 2027-28 to | 2032-33 to | 2037-38 to |
|-------------------------------------|------------|------------|------------|------------|
| Strategies for New Furtuing Sources | 2026-27 | 2031-32 | 2036-37 | 2041-42 |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| Total | 0 | 0 | 0 | 0 |
| | | | | |
| Remaining Unfunded Needs | 0 | 0 | 0 | 0 |

Additional Table Rows

Choose from the drop-down lists for Project Type and Funding Source Type, then fill in the project name and expenditure estimates. Rows that are highlighted RED are either missing information in a "Project & Type Information" column or have zero expenditures.

Link to aggregated table to crosscheck category totals and uncategorized projects.

| 31 32 | FIRST ORDER OF BUSINESS Ca | ll to Order/Roll Call |
| 33 | Mr. Adams called the meeting to order at | 9:04 a.m. Supervisors Aschenbrenner, |
| 34 | Bergman and Williamson were present in person. | Supervisor Margetis was attending via |
| 35 | telephone. One seat was vacant. | |
| 36 | Chair's Opening Comments | |
| 37 | This item was an addition to the agenda. | |
| 38 | Mr. Bergman welcomed the residents to the r | meeting and stated he hoped attendance |
| 39 | would increase now that Zoom attendance is available | ole, as the Board wants to hear resident |

opinions, so the Board can make decisions that are best for the community. He wanted to address certain items, such as residents sending emails around the community attacking, slandering and falsely accusing Board Members that, without facts and looking into it, cannot be tolerated.

- Mr. Bergman presented the following accusations that were made against the Board:
- CDD Election: Requested facts from the accuser regarding an accusation of a Board Member cheating and "rigging" the election.
 - Response: Resident Jeff Lynn stated that he said the reason why they were beat was that Board Members who previously expressed no desire to run again, collected proxy votes; no cheating was involved.
 - Mr. Bergman stated proxy voting is 100% legal and typical, as most homeowners do not vote or are not able to attend meetings.
 - "Kickbacks" from Envera: Requested facts from the accuser regarding the accusation of Board Members taking "kickbacks" from Envera, the company that handles gate access and camera monitoring of the CDD's assets.
 - A Board Member recalled Mr. Lynn asking Mr. Adams about this.
 - Response: Mr. Lynn stated that he asked Mr. Adams if they receive a referral bonus for referring Envera to other CDDs. After researching and finding that the Whitehall and Envera corporate offices are near each other and several CDDs engaged Envera without suggesting other companies.
 - Discussion ensued regarding the minutes recorded that the accusations were directed against two Board Members, not Mr. Adams, and the verbiage "kickback" was used. The Sunshine Law and constraints on Board Members responding to emails or discussing matters outside a CDD meeting was also discussed. It was noted that meeting minutes are posted on the CDD website and recordings are available, upon request. Mr. Adams stated, for the record, that it is as illegal for him or any Board Member to receive a kickback.
 - Mr. Bergman and Mr. Lynn apologized for the tone in the meetings and in the emails to Board Members.

Board Members Choosing Contractors for Personal Gain, Financial or Other: Mr. Bergman stated that the CDD has engaged multiple contractors over the years. He encouraged residents to ask questions, comment and attend meetings; however, he took issue with accusations with facts not in evidence against Board Members who should not have to deal with this.

Mr. Aschenbrenner referred to Lines 125 through 131 of the September 9, 2021 meeting minutes and asked that the minutes be corrected to reflect that he was addressing Mr. Jenn Gano about leasing his boat slip to a non-resident. He apologized to Mr. Lynn for assuming it was him and for the accusatory tone and he also sent a text and email about the mistake. Mr. Lynn apologized to Mr. Aschenbrenner for the way he spoke to him after the meeting. His intent was not to accuse anyone; they just do not agree with the restrictions on file and are worried about why the CDD is stepping in for the Boat Club Association's (BCA) lack of oversight because the BCA did not assess sufficiently. Mr. Lynn stated that he knows the CDD's legal opinion would be discussed. Mr. Lynn stated that they too have legal reviews and the rumor of proceeding with litigation was false.

The following matters were addressed;

- The CDD engaged different contractors for various CDD projects and the only reason Mr. Matt Brown was engaged for a particular project was because he has reasonable prices being a small business owner and performs good work; there was no personal relationship with the contractor.
- Article 6, Section 15: Mr. Aschenbrenner offered to discuss historical data about the marina with Mr. Lynn and other homeowners outside of a CDD meeting. He noted that the CDD has monitored the situation over several years, tried unsuccessfully to make the BCA make the repairs and assess the slip owners and tried not to raise assessments over the last seven years. However, per Article 6, Section 15, the CDD, at any point, can take it over if it is not managed property, as it owns Tract B. The issues are not just the gangway but also the walkway behind the homeowners' property and the boat ramp itself.
- CDD Assessments: The five-year note would fund several CDD projects and, once paid off, the CDD might be able to lower assessments. Discussion ensued regarding the high costs of

issuance for issuing bonds and reducing costs by conveying assets to the HOA and dissolving the CDD, based on a belief that several costs are redundant.

Boat Club Restrictions: In Mr. Lynn's opinion, the Board's decision conflicts with the BCA restrictions filed with the County. Mr. Bergman explained that the CDD's prior District Counsel identified that the CDD owns Tract B and is responsible for the center gangway and noted that the seawall is tied together with the BCA.

Ms. Collier, read a portion of a memorandum from the CDD's former District Counsel, Ms. Slater, which came to the following conclusion:

"That the gangway portion of the boat slip is owned by the CDD because it was placed upon CDD owned property. The CDD owns Tract B that is platted in the subdivision, and as with any other improvement that is placed upon property if there is not an underlying lease or something like that, that allowed someone else to build an improvement upon property, the improvement is placed upon the real property becomes part of the bundle of the sticks that are owned by the owner of the property and therefore is the responsibility of the owner of the property."

Ms. Collier stated that this was the simplest way to put Ms. Slater's conclusion from the January, 2019 "Maintenance of Common Area and Boat Slip Improvements Located on Tract B" by the CDD, Memorandum, which resulted after reviewing all the issues related to ownership and maintenance of the area, the BCA, the CDD, etc. The CDD is the landowner of Tract B upon which the main gangway is located and would be able to repair that area without enforcing deed restrictions to repair the rest of the area, such as the individual boat slips. The memorandum is available as a public record.

In response to a question, Ms. Collier confirmed that, among other documents reviewed, it included the 1993 Palm Bay's 48-page Declaration of Restrictions and Protective Covenants relating to the Palm Bay at Bayside Homeowners Association. The Board would not proceed with paying for another independent legal review from District Counsel. The Memorandum and CDD files of which Ms. Slater based her opinion, which included the Palm Bay Boat Club Association Restriction documents, would be sent to Mr. Lynn. Discussion ensued regarding whether the opinion was also based on the 1993 or 1996 documents.

Resident and HOA Board Member Anthony Dewanni asked why 86 homeowners were paying for the repairs and improvements for the private property of 14 people and what the BCA fees were being used for and asked for the details regarding slip availability. Mr. Dewanni was directed to contact Mr. Greg Frolick, who runs the BCA, for these answers because the CDD does not have access to information regarding what the BCA spends its funds on. Based on his belief that all CDD Board Members are members of the BCA and could request the information, Mr. Dewanni asked if any of them requested the information from the BCA. Mr. Margetis stated that the BCA collected funds to pay for the electrical and plumbing for the portion of the fingers that they own that are on deeded property and for electrical and plumbing out to the deeded property. Mr. Dewanni reiterated his question of why the "entire community" is being assessed for the benefit of just 14 owners. Mr. Margetis stated that there are 15 slips and, according to legal counsel, the common property is the CDD's responsibility, which was the basis of the decision.

Ms. Collier stated that she could provide the folio numbers and anyone can go online and see the property that is owned by the CDD.

Mr. Lynn referred to Pages 46 and 47 of the Deed Restriction documents, which he believed outlined the "boardwalk" and that it should have been conveyed. In his opinion, the fact that the CDD did not convey it or it was not conveyed is not the homeowners' responsibility, because it was supposed to be an automatic conveyance once the Developer sold the last slip. He felt that it is ridiculous that they now have to cover this because, in his words, "the CDD didn't do their job years ago to convey this over to the BCA." Mr. Adams stated that it was not the CDD that was to convey it; it was built by the Developer so the Developer would have been the one to convey it. He explained that one cannot operate on intent, the CDD can only operate on facts and what actually happened. Mr. Lynn talked about what was "supposed to" happen. Mr. Adams stated that the "supposed to" did not happen and voiced his opinion that "supposed to" will not help in terms of a liability claim. Mr. Lynn felt that the Board and Staff are reading the Deed Restrictions the same as he is. Mr. Adams encouraged Mr. Lynn to read the opinion memorandum from former District Counsel and all

supporting documents that were reviewed in terms of reaching the opinion, which should shed a different view or legal reading of the documents.

Mr. Lynn stated that the only document he cares about now is the Boat Club Restrictions and, in his opinion, whatever else Mr. Adams wants him to review is of no concern to him, regarding litigation. He expressed his confidence that what is being done is in violation. He stated that the Board was asked to vote to go forward with an independent review. Mr. Adams stated that the CDD already obtained an independent legal review; the legal opinion was from General Counsel, not Management. Mr. Lynn further discussed the possibility of litigation and potential questions that would be posed to the Board Members, if litigation commences. Regarding the legal opinion obtained by the CDD, Mr. Lynn asked if it was done in relation to defining who owns the docks and along the seawall. Mr. Adams stated that was part of it; it was an all-encompassing review with a portion being specific to the gangway. Mr. Lynn asked if this project was in mind or discussed during that review. Mr. Adams replied affirmatively. It was basically what pushed this issue; the fact that the gangway dock was deteriorating and dilapidated and determining who is responsible for it.

Mr. Lynn recalled past repairs to the gangway boardwalk and asked who repaired those and paid for the repairs. Mr. Adams stated he did not know who funded the repairs but knew it was not the CDD. Mr. Lynn continued discussing the circumstances of the prior repair work.

Mr. Aschenbrenner recalled that, at the April 9, 2020 meeting, District Counsel stated that she researched the CDD and the BCA and walked Tract B and the CDD property. He noted that another issue is the walkways around the houses is in disrepair and hanging over Tract B and on CDD property. The CDD gave rights to the HOA to enforce Neighborhood Covenants because the CDD is not allowed to do so; therefore, the HOA has the power it needs to tell people to keep their docks up-to-date. The bigger problem is, if individual dock owners, with their walkways surrounding the perimeter of Tract B, who is responsible for that, in addition to the boat slips along the back with a walkway along all of those, so it is a large problem that everyone, as a community needs to come together to solve.

Mr. Bergman noted that this has been going on for a long time and it was only once the CDD obtained the legal opinion that the CDD found out that the CDD owns it, is supposed to

manage it and is liable for it. Mr. Aschenbrenner noted that a survey was obtained to determine if residential properties go into Tract B and it was determined that they do not; they stop at the seawall which, in some cases, are a few inches over CDD property, which begs the question of who is responsible for upkeep of the seawall. The Board is trying its best, such that every homeowner on the marina will get a Consent to Use Agreement and they will be responsible for the upkeep.

Resident Wendy Popielarcheck recalled in response to her 2018 emails about ownership of the docks that Mr. Adams conveyed that the CDD only owns from the launch to the lift, Folio Number #005755-6124 in question and that the CDD pays taxes on this property, which is the slip for getting into the boat launch. Also Mr. Greg Frolick contacted her this week and stated that he was responsible for the maintenance a couple of years ago and proposed installing a locked gate. Mr. Bergman believed that the email conversations Ms. Popielarcheck referred to were before the CDD obtained the legal opinion.

Discussion ensued regarding the areas referenced by Ms. Popielarcheck.

- Ms. Popielarcheck stated the Hillsboro County Appraiser's Office conveyed to her the following:
- Within the documents for the BCA, which is another governing body within this community, the dock is listed as an ingress/egress, a legal access to personal property and that the actual ownership of those docks that are in the marina are deeded properties; they can only build or extend on a property deeded to you.

Mr. Margetis left the meeting at 10:00 a.m.

- > Taxes were dispersed equally and have all been paid by each individual dock slip owner.
- Mr. Adams stated that the CDD paid taxes on Tract B, outside of the individual deeded properties that overlay within the outer boundaries of Tract B.

Mr. Bergman stated that, if it were discovered that the CDD does not own the property, he would have no problem reevaluating this matter but, from all the documents involved, Legal Counsel determined that the CDD owns it. He discussed the need to protect the CDD and its assets and pointed out that, if someone sues the CDD, they are not technically suing the Board; they are, in essence, suing the entire CDD.

Ms. Collier stated that she emailed the Board Members the January 2019 Memorandum, which was after the emails Ms. Popielarcheck discussed, along with the deed to the property when it was conveyed by the Developer to the CDD including Tract B, the BCA Declarations and Covenants and the Easement for the Palm Bay Boat Club from 1996, that were used as the bases of the opinion. Mr. Adams stated that he emailed the items he sent to Mr. Lynn and the Board, which included Ms. Slater's memorandum and the documents footnoted in the it.

Mr. Raucher asked Ms. Collier if the CDD can assess the dock owners for the cost to repair the ingress/egress property that leads out to their slips. Ms. Collier stated that the CDD cannot levy a sub-assessment but the CDD has other options. Mr. Aschenbrenner encouraged everyone to look at Article 6 Section 15 of the Declaration documents, which he referenced earlier, about the CDD at any point can assume the responsibilities of the BCA and assess costs but that is not the desire of the CDD. He suggested tabling this item as the issue is not just the gangway, it also includes the walkway behind the homeowner properties, etc.

Mr. Aschenbrenner stated that, if the CDD truly owns the gangway, for the benefit of the community, the plan was that the last gangway would be extended by 6' so it can be used, if needed, as the CDD owns it; they were not installing another slip.

Discussion ensued regarding the legal opinion, affected homeowners that do not benefit from the dock, etc. The CDD being open to maintaining the docks behind residences was discussed, along with liability, the condition of the seawalls and activities in the middle dock.

The Board agreed to table this item to survey homeowners to determine the best approach, including whether to make the docks public or private and if the CDD should pursue the option to assess the slip owners for repairs, while they resolve ownership of the marina.

Mr. Lynn stated expressed his opinion that homeowners do not want the beach and other assets, compared to the issue with the dock, and that homeowners believe the BCA owns the docks and are standing firm with the argument that, although legally the CDD owns the dock on paper, it should have been conveyed to the BCA. Mr. Lynn stated his intent to contact the Tax Appraiser to see if he can show those restrictions and have them conveyed.

| | A question was raised regarding wh | nat happens if the BCA does not follow through and | |
|----|--|---|--|
| th | dock is in disrepair. Mr. Adams stated | the CDD would then have the option to shut it down | |
| or | perform the repairs and assess the me | embers of the BCA. The goal is to get all affected | |
| ho | meowners who refused to execute the C | Consent to Use of Easement Agreement, which states | |
| th | owner is responsible for maintaining th | e seawall and indemnifies the CDD from any liability, | |
| to | execute it, as only three were recorded v | vith the County. | |
| | Mr. Adams would work with the HC | OA on the survey that will also include a notice about | |
| lo | king for candidates to fill Seat 4, which is | s vacant. | |
| | | | |
| SE | COND ORDER OF BUSINESS | Public Comments: Agenda Items | |
| | This item was presented in conjunct | ion with the Chair's Opening Comments. | |
| | | | |

| 271 272 273 274 275 | This item was deferred to the next meeting | Consideration of Resolution 2022-01, Designating Certain Officers of the District, and Providing for an Effective Date | |
|---------------------------------|--|--|--|
| 276 | mis item was deferred to the next meeting | • | |
| 277 278 279 280 | SIXTH ORDER OF BUSINESS | Continued Discussion: Capital Improvement Program and Closing Loan with FineMark National Bank & Trust | |
| 281 | Regarding the items comprising the Capita | al Improvement Program (CIP), Mr. Bergman | |
| 282 | asked if the assessments were finalized and if the | ne CDD could reduce the loan amount with | |
| 283 | FineMark National Bank & Trust (FineMark). | | |
| 284 | Mr. Adams stated that once the Fiscal Yea | r 2022 budget was adopted, the lien roll for | |
| 285 | assessments was transmitted to the County Tax Collector and the tax bill would be sent the first | | |
| 286 | week of November. He stated that FineMark approved a \$200,000 loan and he had the loan | | |
| 287 | documents, Resolution and opinion letter from th | e District Counsel ready to close on the loan. | |
| 288 | As this was being deferred, Mr. Adams did not f | oresee getting a lower amount approved or | |
| 289 | updating the documents. | | |
| 290 | This item was deferred to the next meeting | | |
| 291 | | | |
| 292 293 294 | SEVENTH ORDER OF BUSINESS | Acceptance of Unaudited Financial Statements as of August 31, 2021 | |
| 295 | Mr. Adams presented the Unaudited Finance | cial Statements as of August 31, 2021. | |
| 296 | The financials were accepted. | | |
| 297 | Mr. Adams stated that the agenda for the | next meeting would include consideration of | |
| 298 | appointment of a qualified elector to fill Seat 4, the Capital Improvement Program and the loan | | |
| 299 | with FineMark. | | |
| 300 | Mr. Aschenbrenner asked if the Fiscal Year | 2022 budget was sufficient to proceed with | |
| 301 | the kayak launch project and defer other items, such as the gazebo, fire pit, etc. Conversation | | |
| 302 | ensued regarding resident access difficulties due | to the unfavorable condition of the seawall, | |

the Fiscal Year 2022 budget, an updated proposal, need for additional sand, permitting and fastening the structure to the existing structure.

305 306

303

304

On MOTION by Mr. Aschenbrenner and seconded by Mr. Bergman, with all in favor, installation of the kayak launch and two truck-loads of sand, in a not-toexceed amount of \$11,000, was approved.

Mr. Adams presented the September 9, 2021 Public Hearings and Regular Meeting Minutes.

Mr. Aschenbrenner asked for the conversation on Lines 125 through 131, which he referenced earlier in the meeting, to be clarified. Mr. Adams stated that the minutes could not be changed, as they reflect what Mr. Aschenbrenner said during that meeting but his clarification today would be reflected in the minutes for today's meeting, in the section when Mr. Aschenbrenner made the clarification.

Mr. Bergman stated that, as he attended the last meeting via telephone, he listened to the entire audio and noted he could be heard saying "I think I caught some of that.". He asked for today's minutes to reflect that he was not in agreement with all that was happening, as it was the first time he heard comments about a certain topic, and later in those minutes it reflected that that the Board agreed unanimously. Mr. Williamson stated that he did not agree or disagree about that topic either, as it was also was his first time hearing it.
